10/100 Mbps

Expand your wired home network with the EnGenius 5-Port 10/100Mbps Desktop Switch (EPE-6818af). The EPE-6818af is equipped with 5 10/100BASE-TX Fast Ethernet ports, 1 of which supports 802.3af Power Over Ethernet (PoE).

The EPE-6818af is the most cost-effective solution to share network for SOHO users. Without any confusing installation and configuration, this Plug-&-Play super-compact switch instantly provides reliable network with five new and independent bandwidths with the utmost hardware flexibility.

In addition, each 10/100Mbps port is equipped with built-in Auto-MDI/MDI-X and Auto-negotiation functions. Therefore, this switch can not only automatically adjust between straight-through and crossover cables but also automatically detect and determine for the widest possible bandwidth. With the user-friendly and hassle-free features, this switch is designed to reliably meet the diverse performance demands of mid-size network, which do not require management capabilities.

Moreover, You can use the EPE-6818af with Ethernet-enabled devices where power outlets are not readily available. With the EPE-6818af Power over Ethernet (PoE) function, both power and data can be transmitted up to 328 feet (100m) using standard Ethernet cabling with virtually no reduction in data throughput.
